Mobile Update Enables Northern California's MLSListings Inc. Brokers and Agents to Edit Listings On the Go

Prospects' MLS-Touch Launches Multi-Phase Campaign

Sunnyvale, CA and Montreal, Canada - MLSListings Inc. and Prospects Software (MLS-Touch) have teamed up to bring real estate professionals the ability to edit listings on mobile devices with a reliable, secure and easy to use tool to edit their listings on the go. This innovation is only step one in a multi-phase campaign.

"Our survey of customer and user groups revealed a common desire: the ability to both change price and to edit remarks quickly while out in the field. This mobile tool will enable agents to better serve their clients from anywhere in the world around the clock," said James Harrison, RCE, CAE, President and CEO of MLSListings Inc.

New MLS-Touch mobile features allow users to edit List Price, Public Remarks, and Agent/Private Remarks. MLS-Touch also now offers a calculator for down payments, fees and other monthly costs; an updated listing page; an updated version for iPad, and new colors for branding.

"We're excited to deliver the first phase of this project," said Charles Drouin, Founder and CEO of Prospects Software Inc. "Phase two will add a mobile edit listing status change feature and other fields as we get feedback from our users. We will continue to evolve our mobile offerings under the guidance of industry business rules while also making the experience simple and intuitive for the customers of MLSListings," said Drouin.
